*Don't melt over the small stuff -
we've dug into it for you!*

The high-quality, aluminum alloy ice cream scoop is pad printed with your logo in one of 8 standard colors and packed in an attractive gift box along with a redemption card. The card contains an explanation of how to receive their ice cream, directions to the website, and a unique coupon code. On this website the gift recipient enters:

- Their redemption code
- Their desired ice cream selection
- Their desired week for delivery
- Their delivery address

After that information has been entered they will receive an email acknowledgment. We ship their ice cream for delivery during the week they specify and email a FedEx tracking number to them.

This system avoids the possibility of melted ice cream because of an incorrect address and it gives recipients a choice of three different ice cream selections.

Flat rate shipping includes:
